

Better Futures+ Internships

Magway

About the company

Magway is a multi-award-winning company that has developed a revolutionary solution for sustainably delivering parcels through utility style pipes using linear motors. As we scale rapidly, we need to add a Digital Marketer/Website designer to our Team, designing and delivering industrial digital systems for our game-changing technology. Our team are experts in their fields; motivated, creative, and sociable. We all contribute to Magway's culture of sustainability, self-determination, and mastery – our DNA.

About the role

Having a broad interest in technology, you will be adaptable and passionate about getting things done right. Based at our Wembley development facility, you will be working with the Magway team to:

- Conceptualise, Design, Develop and grow our Social media footprint– Our vision your future.
- Assist in maintaining our website, LinkedIn and other marketing platforms – we love to experiment and show the world our success.
- Assist in development of engaging online content including responding to comments and monitoring and analysing content success.

About the intern

- Proficient abilities in Adobe CC & ability to use a DSLR to take stills and video.
- Working towards a degree (or equivalent) in Design, graphics, marketing and communications or related discipline.
- Ability to work well in teams.
- The right to work in the UK.

Length of internship: *3 months (or negotiable)*

Remuneration: London Living Wage (£10.85 per hour)
