

# Help us boost research and earn up to **£225**

We are looking for volunteers to take part in a study looking at the use of different COVID-19 vaccines and doses for giving a third dose. This study is being run by **Northwick Park Hospital**, and is sponsored by **University Hospital Southampton NHS Foundation Trust**.

## You may be eligible to take part in the study if you:

- Are aged **18-30** years old
- Received **2** doses of Pfizer or Moderna, and are at least 3 months (84 days) since your second dose
- Have **not yet** received a booster.

We will provide reimbursement up to £225 for your time, inconvenience and travel (depending on the total number of visits you attend). The total study participation time is up to 8 months.
